August 26, 2021

Dear Franklinville CSD Families,

Our number one priority is to offer in person instruction 5 days per week for all our students. In order to maintain a safe healthy environment, we will follow CDC and Cattaraugus County Department of Health guidelines. Presently, Cattaraugus County is in a high transmission rate (red). Therefore, the guidelines are as follows:

Masking:

- Masks will be required at all times by all individuals, regardless of vaccination status, when indoor school facilities.
- Masks breaks will be permitted during the school day.
- Masks are required on buses
- Masks will not be required outdoors.
-

Social Distancing:

- Physical distancing of 3 feet will be maintained by all individuals to the greatest extent possible.
- Cafeteria dining will maintain 3 feet of social distancing. Although some students may eat in an alternative setting.
- Maximum 2 students per seat on bus with assigned seats.
- Congregate gatherings (assemblies, concerts, etc.) that occur indoors will be cancelled or postponed. Fields trips may also be postponed.
-

Screening:

- Parents and staff should self-screen at home prior to reporting to school/work. If an individual is experiencing symptoms, he/she should not report to school and should be evaluated by a physician.
- Temperature screenings will be conducted at all school entry doors. Families will notified of any individual with a temperature above 100.4 degrees Fahrenheit.
- Optional screenings will be offered to unvaccinated students and staff at least once per week.

Cattaraugus County has moved from a moderate transmission rate to a high rate of transmission, which has precipitated some changes. As more information is available, the District will keep you update.

Sincerely,
Joan D. Thomas
Interim Superintendent of Schools
